Solicits sanction to the relaxtion of the rule requiring local surbties in the case of loans to be given to settlers at Mumbal and Masakalli villages in the Shimoga District.

cases can be dealt with under them. But the Committee find that there is a certain propotion of cases in which a further concession is necessary in regard to the restrictions now imposed in the matter of grant of advances. The rules now sanctioned require that advances to be given to settlers should be on the surety of some local men of means. This is alright in the case of settlers who have been brought through the influence and with the assistance of local men, for example for the families of settlers at Talaguppa brought through the influence of - - - Mr. Chandavar Subba Rao and families at Nagavalli expected to be brought by the Patel of that village. But in other cases (for example at Mumbal in the Sagar Taluk and at Masakalli in the Nagar Taluk) the settlers have not been brought through the influence of any local men of influence. The settlers are indigent and cannot get any local men to stand surety for them. They have nothing but their industry and character as their assets. The resolution of the Committee is that in cases of this kind, where the Special Revenue Officer is satisfied that there is very little risk of the settlers decamping, loans may be given to the settlers on the joint security of all of them.

3. The Committee are fully aware of the undesirability of paying out Government money without adequate security and have therefore resolved to limit such advances (without local sureties) to a limit of Rs. 1000/- per year. The amount risked is thus very small, when the large sum of money, which the Government have been willing to spend on the Malnad Improvements is taken into consideration. In these circumstances, I recommend that early sanction to the recommendation of the Committee may be obtained.

4. As the rains have already set in and it is high time to start agricultural operations, the settlers at the two villages referred to above have to be immediately provided with the necessary facilities; otherwise they will find it

necessary

necessary to go back to their villages. I therefore solicit the favour of very early orders.

3. Under the Kunbi Scheme as sanctioned by Government no security is contemplated and this fact has contributed in no small measure to the success of the scheme. make advances to settlers, or on the security of cattle to each individual settler with a view to afford facility for the attraction of more settlers.

2. The orders already passed on the 21st June 1916 are no doubt liberal and afford ample facilities for the grant of loans to settlers for the purchase of agricultural stock and implements, but they do not extend to cases of individual settlers, who may settle themselves in different villages. The security for the loans granted to such persons could only be cattle and agricultural implements, which will of course be the value equal to the amount of loan sanctioned. Some relaxation of the rule requiring local sureties for settlers applying for loan is necessary so as to meet these cases and to render the scheme more popular.

3. Under these circumstances, I request that sanction of Government may be obtained to the proposal of the Central Committee recommending the further relaxation of the rule in the matter of the grant of loans to settlers and the vesting of discretion in the Special Revenue Officers either to grant loans on the joint security of ~~xxxxx~~ the settlers or the security of cattle etc purchased from the loan amount.
